

TRAFFIX

Smarter Traffic. Better Movement

WHAT IS TRAFFIC CONGESTION?

Traffic congestion happens when too many vehicles use limited road space, causing slower traffic, longer travel times, and delays.

BY THE NUMBERS

- 66.2%
 - Average congestion in Davao City
- 168 HOURS
 - Lost during rush hours in 2025

WHY DOES TRAFFIC CONGESTION HAPPEN?

-  High vehicle volume
-  Limited road capacity
-  Road incidents & construction
-  Traffic management challenges
-  Public transport delays

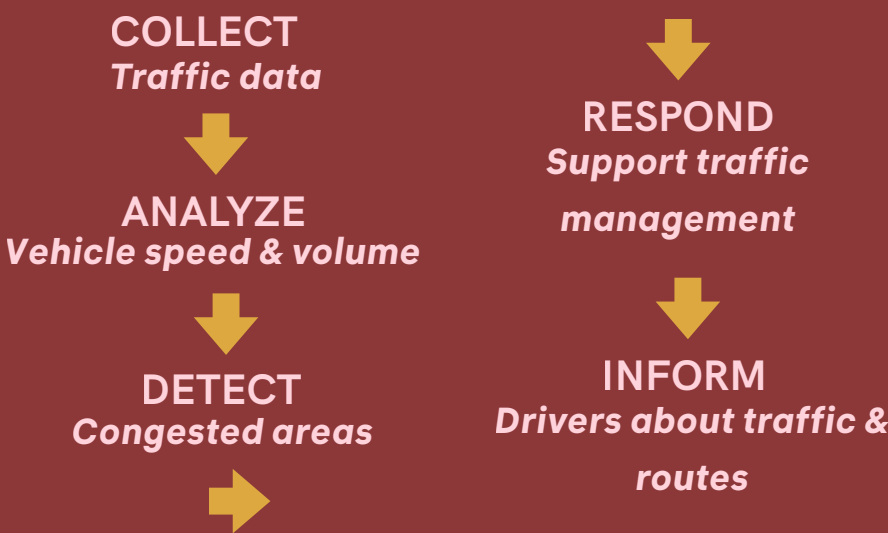

THE IMPACT

- TIME LOST
- MORE FUEL USE
- COMMUTER STRESS
- DELIVERY DELAYS

THE SOLUTION

TRAFFIX

Smart Traffic Monitoring & Management System

EXPECTED BENEFITS

- ✓ Better traffic monitoring
