BUDGET OR BURADO?

BUDGET OR BURADO?

Mechanics:

- Each group must choose **one representative.**
- **Budget:** Within the given budget.
- **Burado:** Over the given budget.
- Raise your **right hand** for Budget and your **left hand** for Burado.
- First to answer correctly earns a point and get a prize.
- No calculators allowed—mental math and Google Sheets only!

What is Google Sheets?

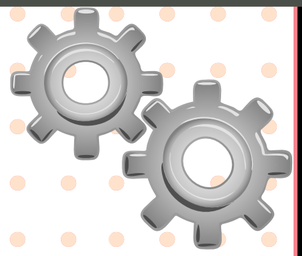

Google Sheets is a free, web-based spreadsheet application developed by Google. It allows users to create, organize, edit, and analyze data in rows and columns.

Home Design Layout Animation

PURPOSE

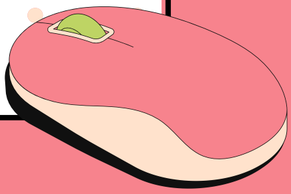

ORGANIZE AND MANAGE INFORMATION

PERFORM CALCULATIONS USING FORMULAS

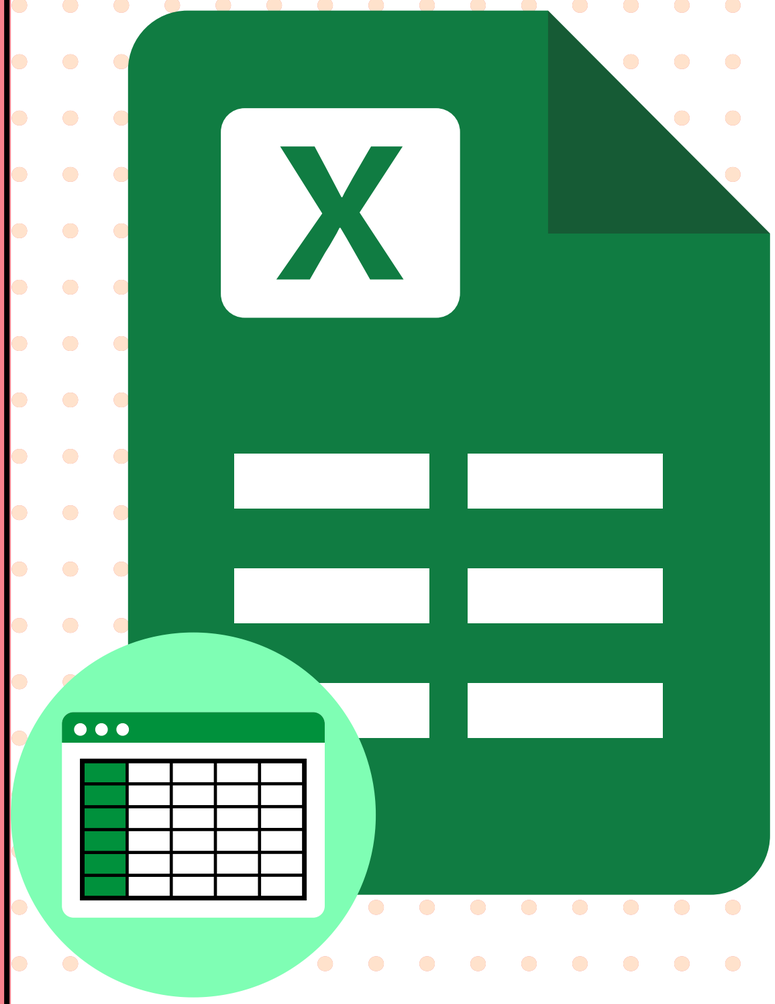

COLLABORATE WITH OTHERS IN REAL TIME

ACCESS AND EDIT SPREADSHEETS FROM DIFFERENT DEVICES

Home Design Layout Animation

FUNCTIONS

- Data entry and organization.
- Automatic calculations using formulas.
- Sorting and filtering data.
- Creating charts and graphs.
- Sharing and collaborating on spreadsheets.

Did you know?

Google Sheets can automatically update calculations when the data in a spreadsheet changes.

COMMON FORMULAS

=SUM(A1:A5)

Adds values in selected cells and gives the total.

=AVERAGE(A1:A5)

Calculates the average of the selected numerical values.

=COUNT(A1:A5)

Counts the number of cells that contain numerical values.

=IF(A1>50,"Pass","Fail")

Returns a result based on a condition, such as determining whether a score is passing or failing.

COMMON FORMULAS

=A1-A2

Subtracts one value from another.

=A1*A2

Multiplies two values together.

=MIN(A1:A5)

Finds the lowest value within the selected cells.

=MAX(A1:A5)

Finds the highest value within the selected cells.

=RANK(A1,A1:A5,0)

Determines the rank of a value compared with other values.

FEATURES

Real-Time Collaboration

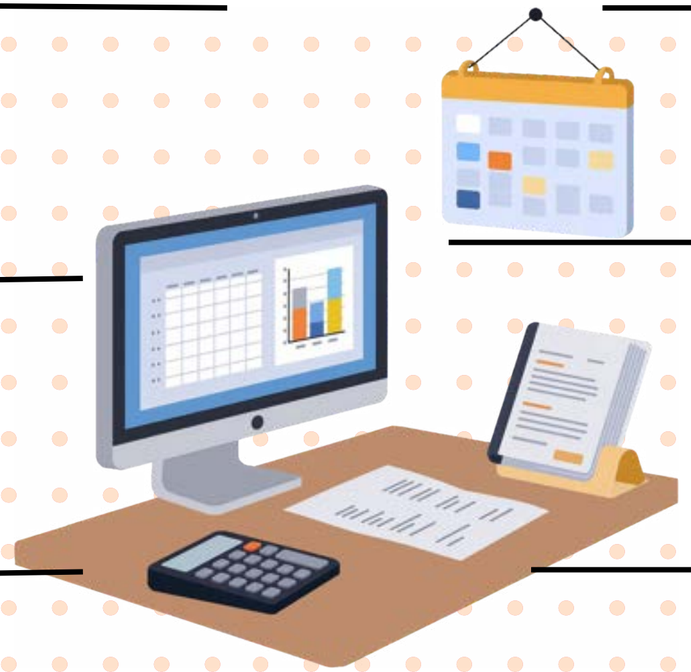

- Allows multiple users to work on the same spreadsheet simultaneously.
- Changes made by one user can be seen by other collaborators in real time.

Flexible Sharing & Permissions

- Users can choose whether others can view, comment, or edit a file.
- Helps control who can make changes to shared spreadsheets.

Offline Access

- Allows users to continue editing when offline if offline access has been enabled.
- Changes can be synchronized once the device reconnects.

Cloud Accessibility

- Stores files online through Google Drive.
- Allows users to access their spreadsheets across supported devices.

Automatic Saving

- Saves changes automatically while users work.
- Reduces the risk of losing recent updates.

Data Presentation & Customization

- Allows users to format data and create charts or graphs.
- Helps make information easier to read and present.

Home Design Layout Animation

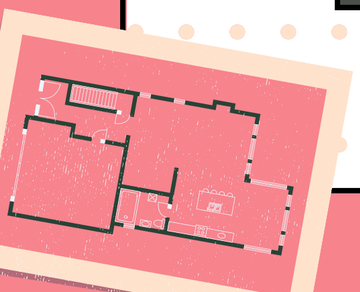

DID YOU KNOW?

Google Sheets has Version History!

- See previous versions of a spreadsheet
- Review changes made over time
- Identify who made changes
- Restore an earlier version when necessary

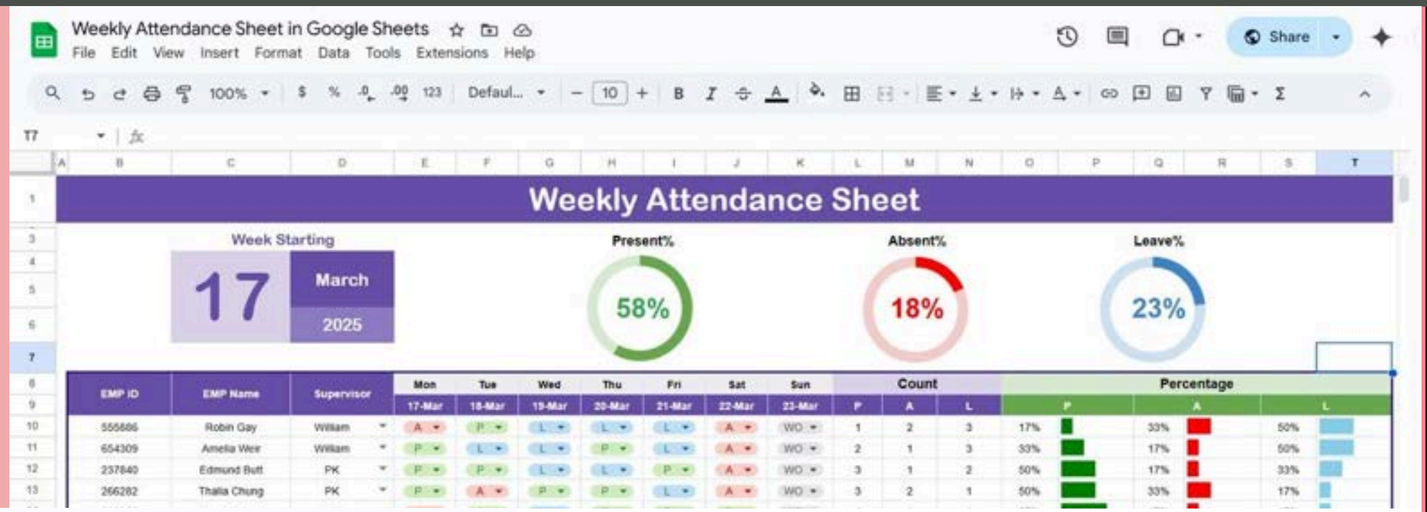

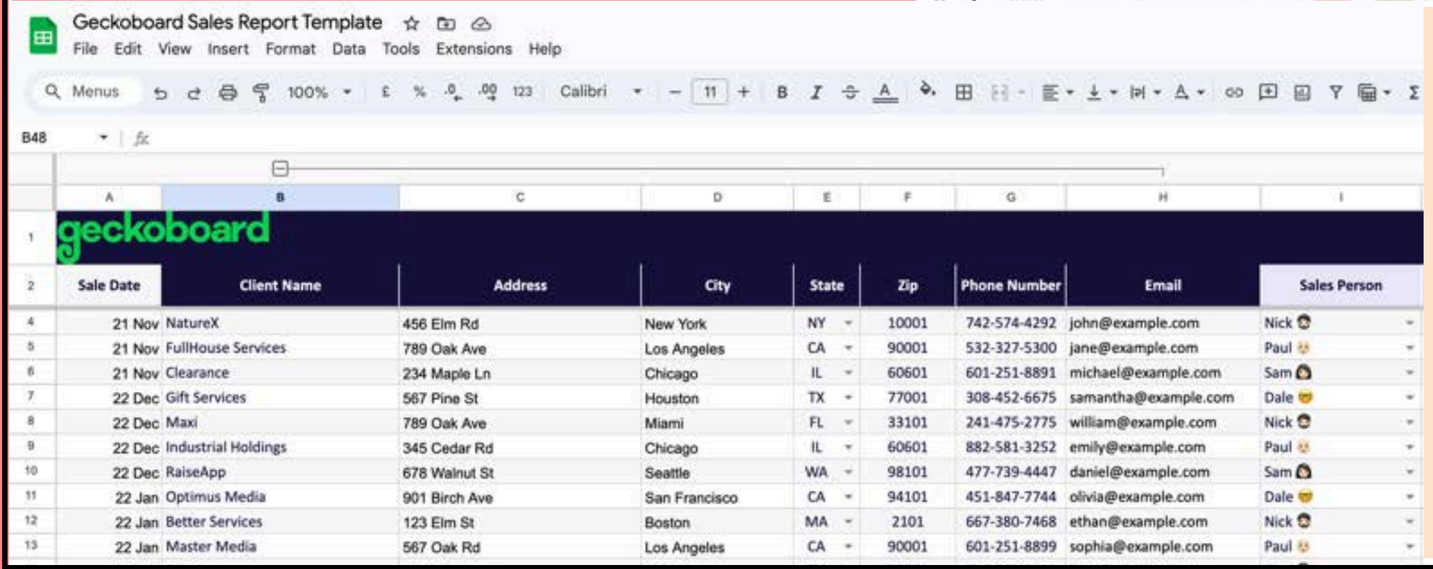

REAL-LIFE APPLICATIONS OF GOOGLE SHEETS

1. School

Tracking grades, attendance, assignments, and group project tasks.

2. Business

Managing sales, inventory, expenses, and employee schedules.
